

COM 211 Team Assignment 3 – Completed Research Plan

Your team will submit a document providing details of how you have undertaken your research.

Note: while this should be a comprehensive outline of what your team did as far as research activities and what sources of information that yielded, this does not have to represent what your team ultimately uses as research for your presentation or paper/report.

- This document should explain what your rationale or thinking was in how to research the company you chose.
- It should also list the research databases or other sources of information you used
- On a separate page, create a References page that includes full APA citations for:
 - Each peer-reviewed source you intend to use
 - All other sources you intend or plan to use
- This will be submitted as a group assignment, so only one person needs to submit. Choose a team member to take responsibility for the submission.
- Submit the completed assignment to the Team Assignment 3 dropbox by midnight **November 19, 2023.**
